

**Phillip View farm is proud to offer locally raised 100% grass fed Scottish Highland beef. We started our farm back in 2012. We completely fell in love with the Scottish Highland breed and enjoy raising our fold as a family. Our goal is to be a sustainable farm that mimics Mother Nature as much as possible. We are proud to provide all our own products from our farm to your family's table.** Phillip View Farm is not currently certified organic, however, we do not treat with any chemicals, treatments, growth hormones or other non-natural products. We strive to raise products that we are proud to put our name on. Our cattle receive no GMO products, our pigs and chickens are fed conventional feed from Phoenix Feeds out of Augusta, Maine. We have not made the switch to 100% organic due to added expense and paperwork, but may in the future.

**We are open at our farm in Sebago on Saturdays from 9 to 1 or by appt. Please feel free to call to set up a time to stop by.**
